[GitHub](#) | [GeeksforGeeks](#) | [LeetCode](#) | Rajasthan, India

SUMMARY

MERN Stack Developer who independently built and deployed a **Kubernetes-orchestrated ChatGPT clone** and two production-grade platforms — an e-commerce store and an Airbnb-style listing app — all from scratch. Hands-on with **Docker, GitHub Actions CI/CD, and NGINX Ingress**, going well beyond typical fresher scope. Looking to bring full-stack and DevOps skills to a team shipping real products.

TECHNICAL SKILLS

Proficient : JavaScript (ES6+), React.js, Node.js, Express.js, MongoDB, REST API Design, JWT Auth, Git/GitHub, HTML5, CSS3

Experienced: Docker, Kubernetes, NGINX Ingress, GitHub Actions, CI/CD, Tailwind CSS, Bootstrap, Material UI, Mongoose ODM, Cloudinary

Familiar : SQL, Java (DSA), Render, Vercel, Netlify, MapBox API, Multer, Formik, EJS

Concepts : MVC Architecture, Container Orchestration, Ingress Routing, Responsive Design, bcrypt Authentication, CRUD

PROJECTS

- AI Assistant (ChatGPT Clone)** | *MERN, Docker, Kubernetes, OpenAI API, JWT* Mar 2026 – May 2026
- [Live Demo](#) · [GitHub](#)
 - Built a full-stack ChatGPT clone with multi-turn conversations, persistent history, and thread management — **deployed end-to-end on Kubernetes** within 3 months as a self-taught fresher.
 - Containerized frontend and backend with Docker; configured **Kubernetes Deployments, Services, Secrets, and NGINX Ingress** for production-grade traffic routing and load balancing.
 - Automated the entire release cycle with **GitHub Actions**: build → test → Docker image push → Kubernetes redeploy on every merge, reducing manual release effort to zero.
 - Stored all sensitive credentials (MongoDB URI, OpenAI Key, JWT Secret) exclusively in Kubernetes Secrets — zero hardcoded environment values in source code.
 - Rendered AI responses with Markdown and syntax-highlighted code blocks via React Context API, delivering a polished chat UX comparable to production tools.
- Boutique — E-Commerce Platform** | *MERN, JWT, Cloudinary, Multer* Jan 2026 – Mar 2026
- [Live Demo](#) · [GitHub](#)
 - Developed a full-stack e-commerce app with **5 modules** (auth, products, cart, reviews, profile) and fully responsive UI across mobile, tablet, and desktop.
 - Built a complete auth flow — **JWT login, bcrypt password hashing, and self-service password reset** — eliminating account recovery friction for users.
 - Integrated Cloudinary for cloud image storage and Multer for multi-file uploads, handling product media without degrading API response times.
 - Engineered a real-time cart with optimistic UI updates, giving users instant feedback and a smooth shopping experience.
- Wanderlust — Property Listing Platform** | *Node.js, Express, EJS, MapBox, GitHub Actions* Aug 2025
- [Live Demo](#) · [GitHub](#)
 - Built an Airbnb-style listing platform with full CRUD, interactive MapBox geolocation maps per listing, and multi-image uploads — following strict MVC separation of concerns.
 - Implemented a **test-gated CI/CD pipeline**: GitHub Actions runs Jest tests against a live MongoDB service container; only green builds deploy to Vercel via Vercel CLI (pull → build → deploy).
 - Uploaded Jest coverage reports as GitHub Actions artifacts on every run, enabling regression tracking across the entire development lifecycle.

KEY ACHIEVEMENTS

Full Stack Developer (Self-Directed Projects)	2025 – Present
<i>Independent</i>	<i>Remote</i>
• Deployed 3+ production apps with 99% uptime across Render, Vercel, and Netlify. • Independently mastered Kubernetes and CI/CD — skills typically seen in developers with 1–2 years of professional experience. • Applied consistent security practices across all projects: bcrypt hashing, JWT auth, Kubernetes Secrets, and protected API routes. • Maintained clean, well-documented GitHub repositories with structured commit history throughout every project. • Solved 100+ DSA problems in Java to build a strong algorithmic problem-solving foundation.	

EDUCATION

Master of Computer Applications (MCA)	2025 – Present
<i>Shri Khushal Das University, Hanumangarh</i>	<i>CGPA: 7.6 / 10</i>
Bachelor of Computer Applications (BCA)	2022 – 2025
<i>Shri Khushal Das University, Hanumangarh, Rajasthan</i>
