

Harkit Singh

Full Stack Developer (MERN)
Rajasthan, India

+91-8890436710 — harkitsinghsran9584@gmail.com
<https://github.com/Harkit07>

Professional Summary

Full Stack (MERN) Developer with hands-on experience building and deploying scalable web applications. Strong in designing RESTful APIs, implementing secure authentication, and creating responsive user interfaces. Proven ability to deliver end-to-end projects with real-world features including cloud storage, geolocation, and persistent user data. Focused on building scalable backend systems and optimizing API performance.

Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3, SQL, Java (DSA)

Frontend: React.js, Tailwind CSS, Bootstrap, Material UI, Formik

Backend: Node.js, Express.js, REST API Design, JWT Authentication

Databases: MongoDB, Mongoose, SQL

Cloud & Tools: Cloudinary, Render, Git, GitHub, Postman, VS Code

APIs & Libraries: MapBox API, Multer

Concepts: MVC Architecture, CRUD Operations, Authentication, Session Management, Responsive Design

Projects

AI Chat Platform (ChatAI)

<https://chatai-vuf2.onrender.com>

<https://github.com/Harkit07/ChatGPT>

- Built a full-stack AI chat platform supporting multi-user sessions with persistent chat storage and real-time responses (<1s latency)
- Implemented secure JWT authentication with protected routes, reducing unauthorized access risk at API level
- Designed scalable chat system handling 1000+ messages per user with efficient MongoDB queries
- Optimized frontend using React Context API, reducing unnecessary re-renders by 30%+
- Integrated Markdown rendering with syntax-highlighted code blocks for improved user experience

E-commerce Platform (Boutique Website)

<https://boutiquefrontend-ymww.onrender.com>

<https://github.com/Harkit07>

- Developed a full-stack e-commerce platform with 5+ core modules (authentication, products, cart, reviews, profile)
- Built secure authentication system with password reset flow, improving account recovery reliability
- Integrated Cloudinary for media handling, reducing server storage usage by 80%+
- Engineered dynamic cart system with real-time updates, improving user responsiveness by 40%
- Designed fully responsive UI for mobile, tablet, and desktop devices

Property Listing Platform (Wanderlust)

<https://wanderlust-274r.onrender.com>

<https://github.com/Harkit07>

- Created a listing platform supporting CRUD operations with multi-image upload functionality
- Integrated MapBox API for interactive maps with accurate geolocation features
- Implemented MVC architecture for scalable and maintainable backend design
- Optimized MongoDB schema design for faster query execution and structured data storage

Experience & Achievements

Full Stack Developer (Self-Directed Projects)

2025 – Present

- Built and deployed 3+ full-stack applications with 99% uptime on cloud platforms (Render)
- Implemented security practices including bcrypt hashing, JWT authentication, and protected APIs
- Designed RESTful APIs following best practices, improving API reliability and debugging efficiency
- Maintained clean, version-controlled repositories with structured commit history on GitHub
- Solved 100+ DSA problems in Java to strengthen problem-solving skills

Education

Master of Computer Applications (MCA)

Shri Khushal Das University, Rajasthan

2025 – Present

Bachelor of Computer Applications (BCA)

Shri Khushal Das University, Rajasthan — CGPA: 7.0

2022 – 2024
